

## Speaking Skills Assignment – Let's Learn and Share!

Dear students,

We are going to start a fun and exciting project to help you practice your **speaking skills**! This assignment will help you become more confident when speaking in front of others and teach you how to work together as a team.

Your speaking skills will be evaluated in **two ways**:

---

### Part 1: Group Research and Poster

- You will work in **groups of four**.
  - Each group will be given a **special topic** to research. Check the list of topics to know the topic of your group.
  - a. **Tasks to be done at home**
    - At home, **each student will be responsible for one part** of the topic.
    - Find **interesting information** and bring **pictures** or drawings to support your part. You can print them, cut them out of magazines or draw them yourself!
    - Bring your materials to class.
  - b. **Tasks to be done in the classroom**
    - Together with your group, you will:
      - **Create a colorful poster** using cardboard. Glue the pictures and write or glue the information in a neat and creative way.
      - **Practice your presentation** as a group.
- 

### Part 2: Presentation and Individual Speaking Evaluation

- **Present your project** to the class. Each student must speak about the part they researched.

 *Remember: Be respectful listeners when other groups are presenting!*

- During the group's presentation, **each student will be graded on**:
  - How clearly he/she speaks.
  - How well he/she explains your part of the topic.
  - How confident and enthusiastic he/she is.
  - How he/she answers simple questions from classmates or the teacher.

### ✔ What You Need to Do:

- Research your part of the topic at home.
  - Bring pictures and information to class.
  - Work with your group to create your poster.
  - Practice your speaking part.
  - Present with your group on the day of the presentation.
- 

### 💡 Tips for a Great Presentation:

- Speak loudly and clearly.
  - Look at your audience when you speak.
  - Smile and show interest in your topic.
  - Practice at home in front of your family!
- 

Have fun learning and sharing your ideas! I can't wait to see all your amazing projects and hear your presentations! 🎉
