

Kindly read and solve the following word problems in your notebook (**DO NOT** copy the word problem). Write the number sentence **ONLY**.

- 1) James builds a tower with 13 blocks. He adds 6 more blocks.  
How many blocks are in the tower altogether?
- 2) Talia's colouring book has 20 pages, she colours 8 pages.  
How many uncoloured pages are left in her book?
- 3) Sami has 17 dinars in his wallet. Dani has 11 dinars in his wallet. How many more dinars does Sami have than Dani?
- 4) A bag of beads contains 9 blue beads and 8 red beads. How many beads are in the bag in total?

Note: Do not forget to write the long date on the top of the page.
