

Where do you  
guess our story  
will be taking us  
to ?

# ***Let's Go To Mars!***

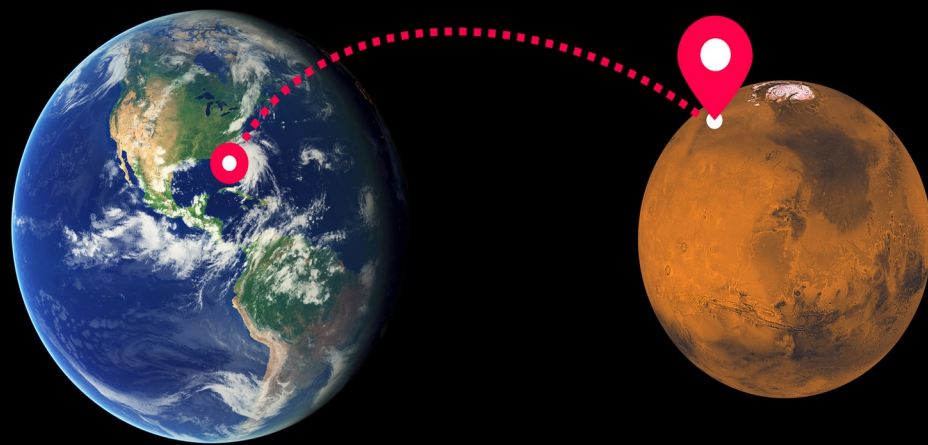

***Janice Marriott  
Mark Ruffle***

**English Reading  
Competition**

**Presentation by :  
Tara Mansour**

**Grade 3 D**

Earth

Mars

# Mars Surface

# Mars compared to Earth

Mars is about half the size of Earth and the Moon is about half the size of Mars.

	Earth	Mars
Length of day	24 hours	24.6 hours
Length of year	365 days	687 days

A full-page image with rounded corners showing an astronaut in a white space suit standing on a rocky, dusty planet surface. The astronaut is seen from the back, looking towards a bright, hazy horizon. The suit has a large circular vent on the back and some markings. The background is a vast, desolate landscape under a yellowish sky.
