

Look Back

P.108

Do not be afraid to share your thoughts with others.

What do you get from each pair of doubles above?

2, 4, 6, 8

- What is double 1? 2
- What is double 2? 4
- What is double 3? 6
- What is double 4? 8

P.108

Thinking Cap

How many is 3 fives? $3 \text{ fives} = 5 + 5 + 5 = 15$

How can you find out?

Let's Learn

P.109

Eddy puts some lollipops into 3 equal groups.
Each group has 10 lollipops.
How many lollipops does he have altogether?

We can do repeated addition or multiply to find the total number of lollipops.

You can find the answer by repeated addition or multiplying.

$$10 + 10 + 10 = 30$$

$$3 \text{ tens} = 30$$

$$\begin{array}{r} 10 \\ \text{number of objects in each group} \end{array} \times \begin{array}{r} 3 \\ \text{number of groups} \end{array} = \underline{30}$$

Let's Practise

P.110

I Make equal groups of 5.

Then fill in the blanks.

There are 3 groups of 5.

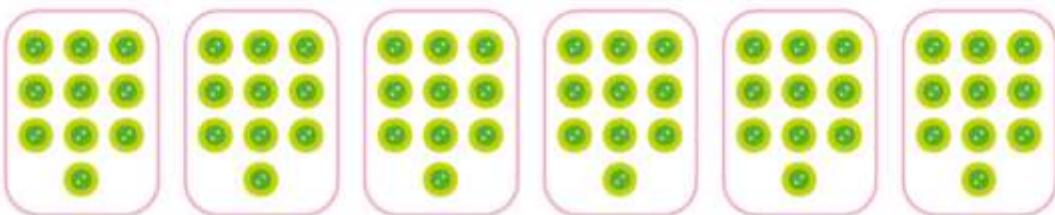

$$\underline{5} + \underline{5} + \underline{5} = \underline{15}$$

$$\underline{\text{three}} \text{ fives} = \underline{15}$$

$$\underline{5} \times \underline{3} = \underline{15}$$

2 How many buttons are there altogether? **P.10**

Write an addition sentence and a multiplication sentence.

6 groups of 10 is 60.

$$10 + 10 + 10 + 10 + 10 + 10 = 60$$

6 tens = 60

$$10 \times 6 = 60$$

There are 60 buttons altogether.

3 There are 2 eggs in a nest. **P.10**

How many eggs are there in 7 such nests?

Multiply by adding equal groups.

Explain your answer to your partner.

7 groups of 2 is 14.

$$2 + 2 + 2 + 2 + 2 + 2 + 2 = 14$$

seven twos = 14

$$2 \times 7 = 14$$

There are 14 eggs altogether.
