

Worksheet A

Multiply by Adding Equal Groups

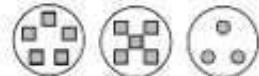

Level 1

Level 2

Level 3

1 Tick the equal groups.

A:

B:

C:

If you are not sure, you can refer to Student's Book pages 108 to 110.

What is the same about the equal groups?

Explain your answer.

There are equal number of items in each group.

2 Caz and Eddy both think that they have 3 equal groups of 2.

Caz:

Eddy:

Who is incorrect?

Explain why.

Caz is incorrect because she has 2 equal groups of 3 strawberries and not 3 equal groups of 2 strawberries. She has $3 + 3 = 6$ strawberries and not $2 + 2 + 2 = 6$ strawberries.

3 Look at the pictures below.

Show the total number of items in four different ways.

a

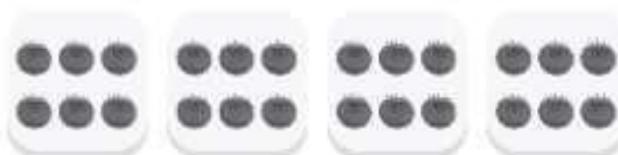

There are 3 groups of 2
$$\underline{2} + \underline{2} + \underline{2} = \underline{6}$$

3 twos = 6
$$\underline{2} \times \underline{3} = \underline{6}$$

Ron says: This can also be written as $3 + 3 = 6$.
Is Ron correct?
Why do you say so?

b

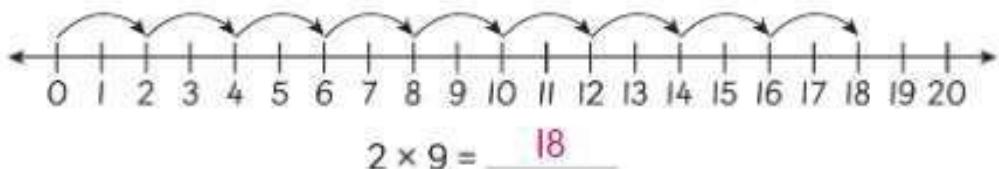

There are 4 groups of 6
$$\underline{6} + \underline{6} + \underline{6} + \underline{6} = \underline{24}$$

4 sixes = 24
$$\underline{6} \times \underline{4} = \underline{24}$$

4 Look at each number line.

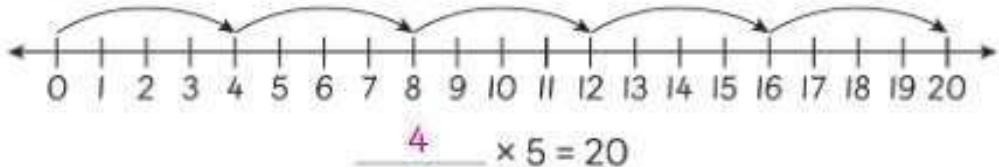

Fill in the blanks.

a

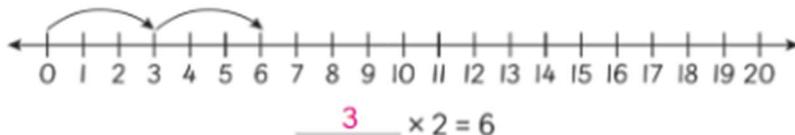

Level 1 Level 2 Level 3

b

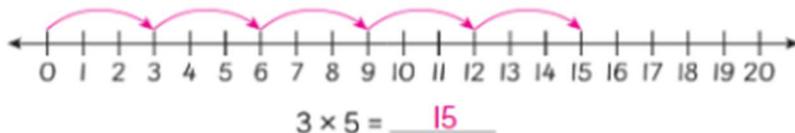

c

d What is 3×5 ?

Draw jumps on the number line to help you.

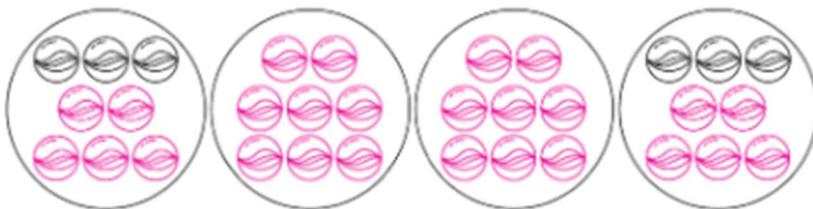

Then fill in the blank.

Level 1 Level 2 Level 3

5 Ali has 4 groups of 8 marbles.

Draw to complete the picture.

a Explain how you complete the picture.

Draw 5 marbles in the 1st group and the 4th group, and
8 marbles in the 2nd and the 3rd group.

b Fill in the blanks.

$$\begin{array}{r} 8 \\ + 8 \\ \hline 8 \end{array} + \begin{array}{r} 8 \\ + 8 \\ \hline 8 \end{array} + \begin{array}{r} 8 \\ + 8 \\ \hline 8 \end{array} = 32$$

$$8 \times 4 = 32$$
