

## Look Back

Student's Book p. 192

Eddy cuts a pancake into 4 equal parts.

What fraction of the pancake has strawberries?

What fraction of the pancake has blueberries?

How do you know?

What fraction of the pancake has strawberries on it?  $\frac{1}{4}$

• What fraction of the pancake has blueberries on it?  $\frac{1}{2}$

• How do you know?

The pancake has 4 equal parts. The strawberries are on 1 part and 1 part of 4 parts is one "quarter". The blueberries are on 2 parts and 2 parts of 4 parts is "half."
