

# Let's Practise

Student's Book p. 195

5 equal parts

1 Fill in the blanks.

$$\frac{\boxed{1}}{\boxed{5}} + \frac{\boxed{1}}{\boxed{5}} + \frac{\boxed{1}}{\boxed{5}} + \frac{\boxed{1}}{\boxed{5}} + \frac{\boxed{1}}{\boxed{5}} = \frac{5}{5} \text{ make 1 whole.}$$

2 Match the same fractions. Explain how you match them.

$\frac{3}{4}$

$\frac{1}{4}$

$\frac{2}{4}$

$\frac{2}{4}$

$\frac{3}{4}$

$\frac{1}{4}$

**Student's Book p. 195**

**3** Colour to show the fraction.

**a**  $\frac{2}{5}$  of the figure is red.

shade 2 parts out of 5 equal parts

**b**  $\frac{4}{10}$  of the figure is green.

shade 4 parts out of 10 equal parts

**Student's Book p. 196**

**c** Show your own shapes that are  $\frac{2}{5}$  and  $\frac{4}{10}$ .

$$\frac{2}{5}$$

$$\frac{4}{10}$$

 d Show a shape that is not  $\frac{2}{5}$  or  $\frac{4}{10}$ .

$$\frac{1}{3}$$

$$\frac{5}{8}$$

Student's Book p. 196

- 4 Paul fills  $\frac{3}{4}$  of a jug with water.

$\frac{1}{4}$  of the jug is not filled with water.

- 5 Divide the triangle into 3 equal parts.  
Colour  $\frac{2}{3}$  of the triangle.
