## Chapter 13, Lesson A: Understand Fractions (13.A.1)

1. The figure below is divided into 10 equal parts.

a) Shade  $\frac{3}{10}$  of the figure.    shade 3 parts out of 10 equal parts

b) What fraction of the figure is not shaded?  $\frac{7}{10}$     numerator  
denominator

2. Colour  $\frac{3}{4}$  of each figure.

shade 3 parts out of 4 equal parts

a)

b)

(c)

(d)

4. Circle the correct fraction.

$$\frac{3}{5}$$

( 3 fourths, 3 fifths, 2 thirds )

$$\frac{2}{4} = \frac{1}{2}$$

( 5 eighths, 1 half, 1 quarter )

$$\frac{4}{10}$$

( 4 tenths, 2 quarters, 7 eighths )

5. Complete the following.

a.

three ninths

$$\frac{3}{9}$$

c.

four eighths  
1 half

$$\frac{4}{8}$$

b.

eight eighths = 1 whole

$$\frac{8}{8}$$

d.

four eighths  
1 half

$$\frac{4}{8}$$
