

The total number of balls is 12.

Student's Book p. 197

Thinking Cap

$\frac{1}{3}$ of the balls Caz has are green.

How many green balls does she have in the bag?
How do you find out?

How do you find $\frac{1}{3}$ of the total number of balls?

We can put all the 12 balls into 3 equal groups and find the number of balls in each group.

$$12 \div 3 = 4$$

How many green balls are there?

The 12 balls can be put into 3 equal groups of 4 balls each.
Caz has 4 green balls in the bag.
