

## Subtract by Taking Away

Level 1

Level 2

Level 3

1 Fill in the blanks.

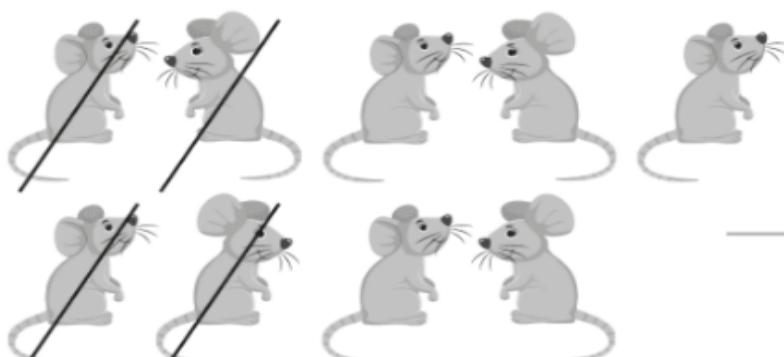

a

$$6 - \underline{\quad} \underline{\quad} = \underline{\quad}$$

b

$$\underline{\quad} \underline{\quad} - \underline{\quad} \underline{\quad} = \underline{\quad}$$

Activity  
Go to Section

p.71

2 Take 5 lemons away from 11 lemons.

How many lemons are left?

$$\underline{\quad} \underline{\quad} - \underline{\quad} \underline{\quad} = \underline{\quad}$$

6 lemons are left.

3 There are 15 boxes.

Rosie takes away 6 boxes.

How many boxes are left?

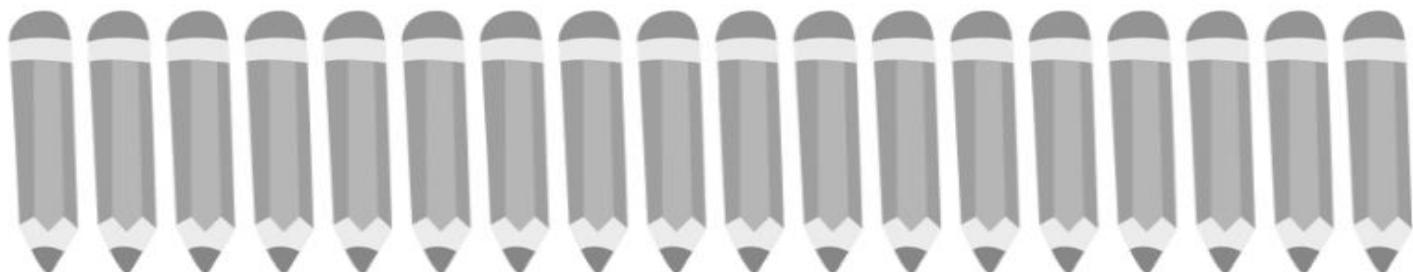

$$\underline{15} - \underline{6} = \underline{9}$$

9 boxes are left.

4 Raiz has 18 coloured pencils.

Ming borrows 3 of his coloured pencils.

How many coloured pencils does Raiz have left?

$$\underline{18} - \underline{3} = \underline{15}$$

Raiz has 15 coloured pencils left.

5 Kelly has some red and green apples.

There are between 12 and 15 apples in total.

3 of the apples are red and the rest are green.

How many green apples are there if Kelly has the least number of apples?

$$13 - 3 = 10$$

There are 10 green apples.
