

Let's Practise

Student's Book p. 198

1 Fill in the blanks.

$\frac{4}{5}$ of the marbles is green.

$\frac{1}{5}$ of the marbles is blue.

2

$\frac{1}{10}$ of the muffins are blueberry. $\frac{9}{10}$ of the muffins are chocolate.

3

$\frac{4}{6}$ of the hair clips are pink.

$\frac{2}{6}$ of the hair clips are yellow.

3
4

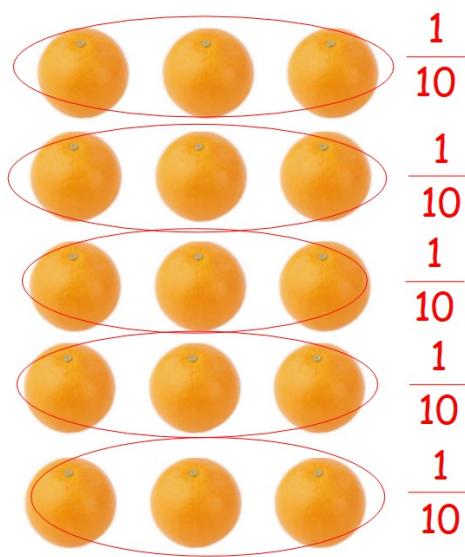

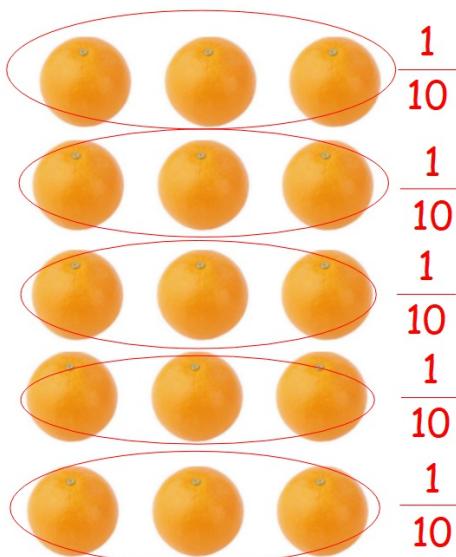

Student's Book p. 198

This is $\frac{1}{10}$ of the number of oranges Amar has.

How many oranges does Amar have?

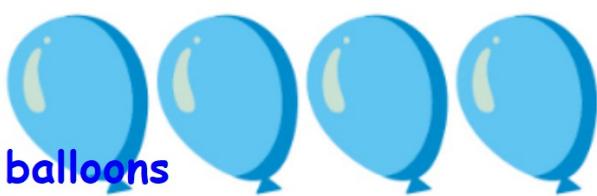

$$3 \times 10 = 30$$

5

$\frac{2}{5}$ is 4 balloons

$\frac{1}{5}$ is 2 balloons

This is $\frac{2}{5}$ of the number of balloons Hana has.

2 of them burst. How many balloons are left?

Explain how you got your answer.

Student's Book p. 198

$\frac{1}{5}$	$\frac{1}{5}$	$\frac{1}{5}$	$\frac{1}{5}$	$\frac{1}{5}$	\dots
2	2	2	2	2	

$$\begin{array}{c}
 \begin{array}{ccccc}
 \begin{array}{cc} \text{balloons} & \text{balloons} \end{array} & = & \frac{2}{5} & \text{so} & \begin{array}{cc} \text{balloons} & \text{balloons} \end{array} = \frac{1}{5} \\
 \begin{array}{ccccc} \text{balloons} & \text{balloons} & \text{balloons} & \text{balloons} & \text{balloons} \end{array} & & \frac{5 \times 2 = 10}{\text{balloons}} & & \begin{array}{ccccc} \text{balloons} & \text{balloons} & \text{balloons} & \text{balloons} & \text{balloons} \end{array} = 10 \\
 \begin{array}{ccccc} \frac{1}{5} & + & \frac{1}{5} & + & \frac{1}{5} & + & \frac{1}{5} & + & \frac{1}{5} & = & \frac{5}{5} \end{array} & & & & & = & \frac{5}{5}
 \end{array}
 \end{array}$$

2 of them burst so $10 - 2 = 8$ balloons
