Let's Practise

I A sandwich is shared equally between 2 people.
What fraction of the sandwich does each person get?

1 sandwich divided by 2 people

$1 \div 2 = \dfrac{1}{2}$

2 Sofia had a sheet of wrapping paper. She cut the paper equally
to wrap 4 presents. What fraction of the paper did she use to
wrap each present?

1 wrapping paper divided into 4 equal parts

$1 \div 4 = \dfrac{1}{4}$

3 Ali has 8 stickers. He gives 6 of them to his friends. What fraction of the stickers does he give to his friends?

1   2   3   4   5   6   7   8

6 parts of 8 parts   = 6 eighths = $\frac{6}{8}$
