

Look Back

Student's Book p. 200

A watermelon is shared equally among 4 children.

What fraction of the watermelon does each child get? $\frac{1}{4}$

How do you know?

Cut the watermelon into 4 equal parts. Each child will get 1 equal part, which is $\frac{1}{4}$ of the watermelon.

Thinking Cap

4 children share 3 watermelons equally.
What fraction of a watermelon does each child get?
Explain how you got your answer by drawing it out.

Student's Book p. 200

We can cut each watermelon into 4 equal pieces. Then, each child takes 1 piece from each watermelon and gets 3 pieces in all.

What fraction of a watermelon is 1 piece?

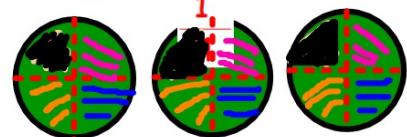

$\frac{1}{4}$ of a watermelon

What fraction of a watermelon is 3 pieces?

$\frac{3}{4}$ of a watermelon

What fraction of a watermelon does each child get?

$\frac{3}{4}$ of a watermelon

$$\text{person 1 : } \frac{1}{4} + \frac{1}{4} + \frac{1}{4} = \frac{3}{4}$$

$$\text{person 2 : } \frac{1}{4} + \frac{1}{4} + \frac{1}{4} = \frac{3}{4}$$

$$\text{person 3 : } \frac{1}{4} + \frac{1}{4} + \frac{1}{4} = \frac{3}{4}$$

$$\text{person 4 : } \frac{1}{4} + \frac{1}{4} + \frac{1}{4} = \frac{3}{4}$$
