What Can You See Inside the Box?

Skills:

Predict what will happen, collect and show my observations on drawings and in tables, explain an enquiry and whether what I found matched my predictions

- 1 Look at the two boxes your teacher has prepared.

box A

box B

opening

- 2 Predict which box you will be able to see an object in.
Why do you think so?

Answer may vary

- 3 Look into each box through the opening on the side.

- 4 Write or draw what you see in each box.

Box A	Box B
nothing	toy

- 5 Complete each sentence. Circle the correct answer.

I can see the object inside box (A / **B**).

We cannot see things when there is (light / **darkness**).

- 6 Does the result match your prediction?

Answer may vary

Let's Review

p.60

1 What are light sources?

Tick (✓) the box beside the correct answer.

Things that can only be found in nature

☐

Things that give off light

☒

Things that look like the Sun

☐

Things that are colourful

☐

2 Which objects are light sources? Which are not light sources?

Write the name of each object in the correct box.

torch

campfire

mirror

street lamp
