Let's Practise

I Which of these describes a circle? Tick (✓) them.

✓ A circle is round.

☐ A circle is a polygon.

✓ A circle does not have straight edges.
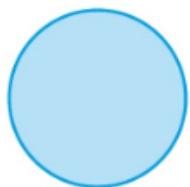

2 Eddy says this shape is a polygon. Is he correct? Explain.
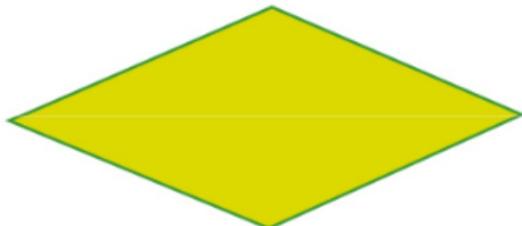

Yes. It is a rhombus. It is a 2D shape that is flat, closed and has 4 sides that are all straight.

3 Which of these is not a pattern? Why do you say so?

Show your partner the correct pattern.
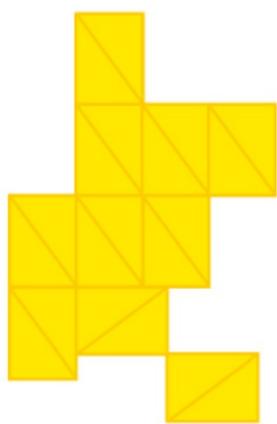

Pattern A
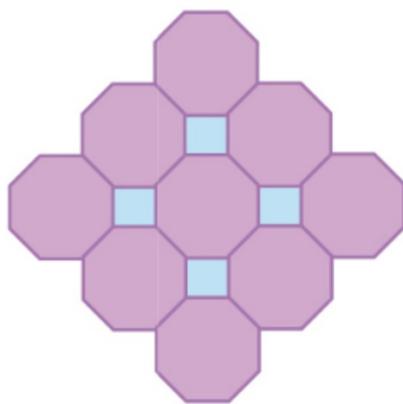

Pattern B

Pattern A is not a (repeating) pattern. Pattern B is a (repeating) pattern.

Some triangular tiles or triangles in Pattern A have been incorrectly fixed/placed.
