

Rosary School / Marj El Hamam
Extra Science Worksheet

Name: _____

Grade 4 ()

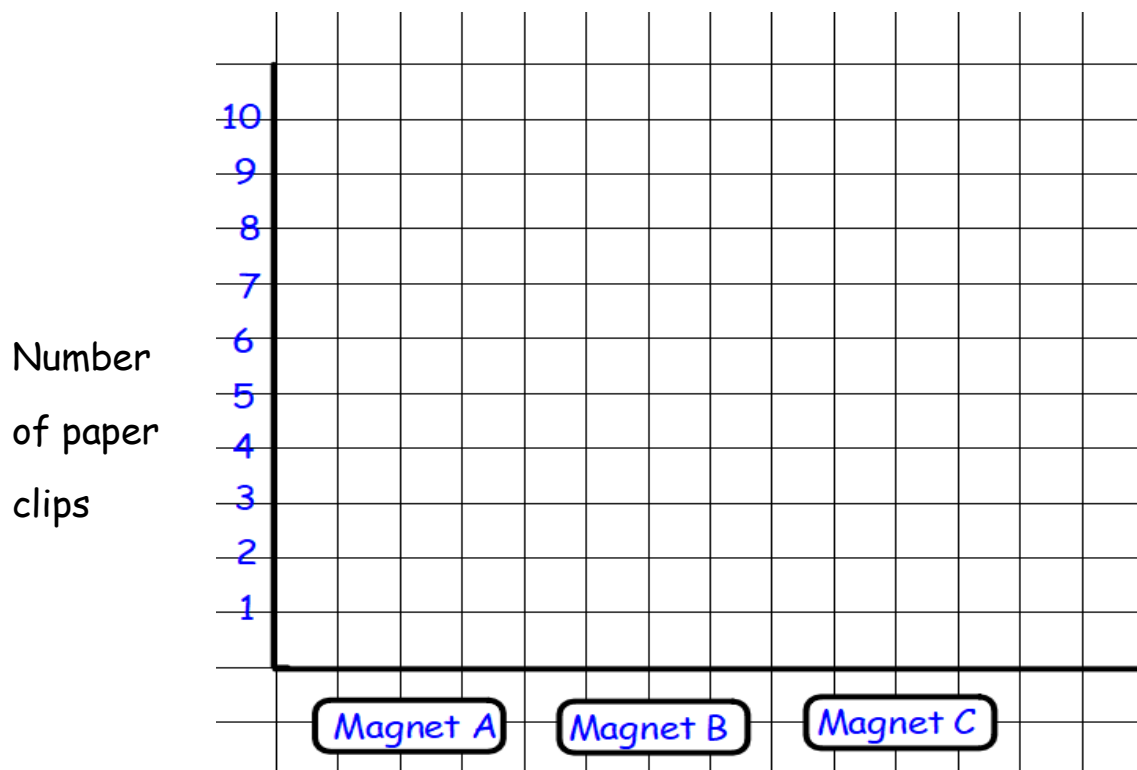

Date: Saturday, May 17th

In this exercise you will learn how to draw a bar chart.

1. Magnets come in all shapes and sizes and strength. David is investigating the strength of a magnet. He used a pile of steel paper clips to test the strength of different magnets. He recorded his results in the following table.

Draw a bar graph to show his results.

Magnet	Number of paper clips attracted
Magnet A	8
Magnet B	6
Magnet C	10

2. Lara is using a decibel meter to measure the soundproofing of different material. She recorded her results in the following table.

Material	Loudness in decibels (dB)
Material A	85
Material B	100
Material C	70
