Date : _____

How Things Are Grouped

Objective:

Differentiate between living things, things that were once alive and things that never lived.

Q1. Massa sorts different objects into three groups.

These are the three groups.

living	once alive	never lived
plant	bone	wooden log
insect	dried flower	rock
frog		plastic spoon

a. Is Massa correct? Tick the correct box.

Yes No

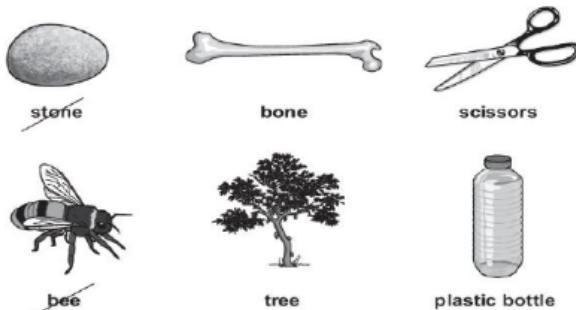

Explain your answer.

Wooden log is a thing that is once alive.

Q2. Circle the group of things that were once alive.

- a. tree, cat, bird
- b.** wood, cotton, wool
- c. rock, metal, plastic
- d. plant, paper, glass

Q3. Jana has a picture of different things.

a. Write down the name of each thing in the correct group.

Two have been done for you.

living	once alive	never lived
bee	bone	stone
tree		plastic bottle
		scissors

b. Explain why do you think Jana sorted the stone as something that never lived? Write one reason.

The stone doesn't need air, food and water.

Q4 Solve the riddle.

* I come from a tree. You can write on me.

* I'm not alive anymore, but I used to be.

What am I? paper
