

Student of the Week - Criteria

1. Academic Effort & Performance

- Completes all math assignments on time.
- Shows improvement in quizzes or classwork (Progress counts, not just high scores).
- Demonstrates problem-solving strategies clearly.
- Participates actively during math discussions.

2. Attitude & Engagement

- Shows a positive attitude toward learning math.
- Asks thoughtful questions and seeks help when needed.
- Encourages classmates and contributes to group work.
- Stays on task and uses class time productively.

3. Responsibility & Habits

- Comes prepared with math materials (notebook, calculator, pencil).
- Keeps math work neat, organized, and well-presented.
- Demonstrates perseverance when facing challenging problems.
- Consistently follows classroom rules and instructions.

4. Growth & Initiative

- Shows noticeable progress in math skills or confidence.
- Attempts enrichment problems or extra challenges.
- Takes responsibility for correcting mistakes and learning from them.
- Applies math concepts to real-life situations when possible.

5. Character & Citizenship

- Shows respect to peers and teacher during math activities.
- Willingly helps classmates understand concepts.
- Demonstrates honesty and fairness in classwork and group tasks.
- Models enthusiasm that inspires others in math learning.
