

## Let's Review

## Activity Book p.20

I Look at the pictures in the table.

Write the name of the animal group each animal belongs to.

Animal	Name of Animal Group
 cat	<b>mammals</b>
 frog	<b>amphibians</b>
 crocodile	<b>reptiles</b>
 mosquito	<b>insects</b>
 salmon	<b>fish</b>
 pigeon	<b>birds</b>

## Activity Book p.21

2 Put a tick (✓) in one box to show the correct feature for each animal group below.

### Mammals

They give birth to young alive.

They have scales on their body.

**skin covered in hair or fur**

### Birds

They have wings with feathers.

They lay eggs in water.

**on land not water**

## Activity Book p.21

### Reptiles

They have dry scales on their body.

Their babies are born in water.  
**on land not in water**

### Fish

**gills not lungs**

They use lungs to breathe underwater.

They have a tail and fins to help them swim.

### Insects

They have a pair of antennae on their heads.

All insects have wings.

**not all (some insects don't fly)**

### Amphibians

They can live both on land and in water.

They have dry scales on their skin.

**moist skin and no scales**
