

Q3) The temperature was  $-5^{\circ}\text{C}$  yesterday. It is  $7^{\circ}\text{C}$  warmer today.

What is the temperature today? 2  $^{\circ}\text{C}$

Chapter 2: Extra Practice

1. What are the missing numbers? Fill in each blank.

(a) -38, -28, -18, -8, 2, 12

I count on in 10s.

**The numbers are increasing.**

By extending this pattern, explain if 108 will be in this number sequence.

**No, 108 will not be in this number sequence.**

**22, 32, 42, 52, 62, 72, 82, 92, 102, 112**

**1st term**  
(b) 431, 331, 231, 131, 31, -69, -169 **7th term**

I count back in 100s.

The 7th term is 600 less than the 1st term in the number sequence above.

**because we counted back 6 hundreds(6 times).**

**The numbers are decreasing.**
