

Name: \_\_\_\_\_

Grade 4 (      )

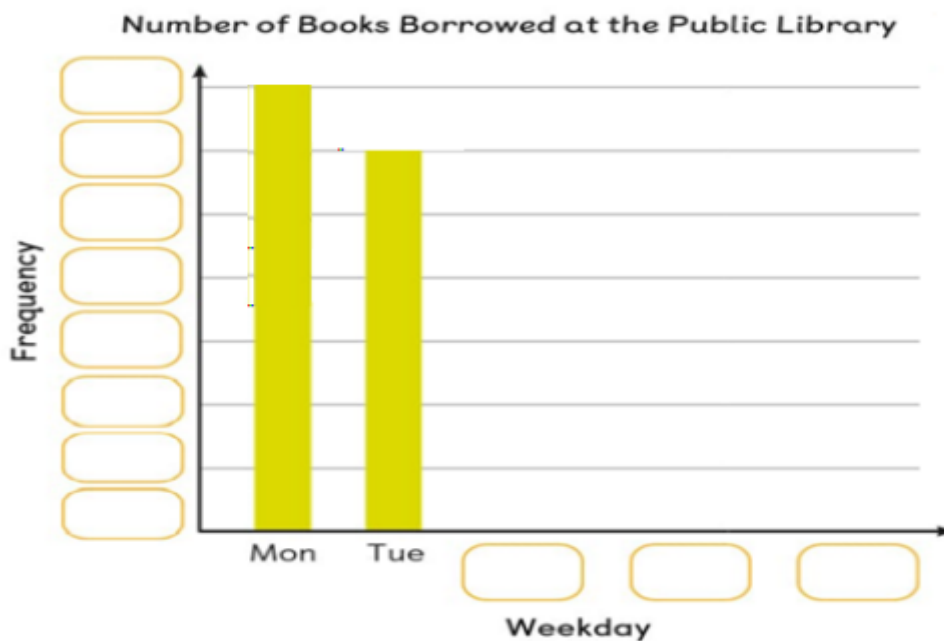

Date : \_\_\_\_\_

**Objective(s):** Draw a bar chart with a suitable scale.

The table shows the number of books borrowed at a public library.

| Day                      | Mon | Tue | Wed | Thu | Fri |
|--------------------------|-----|-----|-----|-----|-----|
| Number of books borrowed | 700 | 600 | 500 | 400 | 350 |

1. a) Complete the below bar chart from the data on the table above.

- b) The most books were borrowed on \_\_\_\_\_.
- c) \_\_\_\_\_ fewer books were borrowed on Thursday than Tuesday.
- d) Twice as many books were borrowed on \_\_\_\_\_ than on \_\_\_\_\_.
- e) The number of books borrowed altogether is \_\_\_\_\_.
