

Name: _____

Grade 4 ()

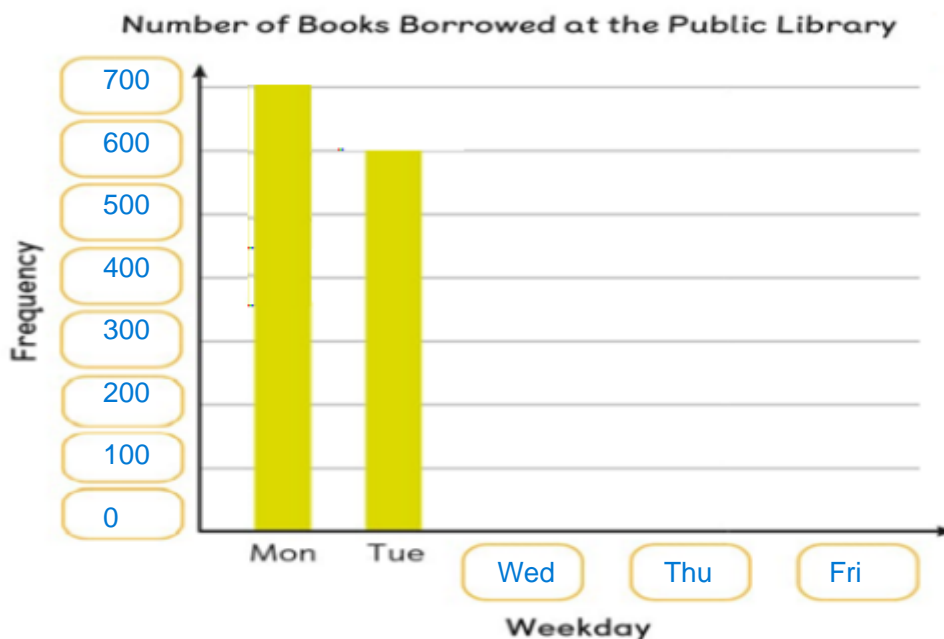

Date : _____

Objective(s): Draw a bar chart with a suitable scale.

The table shows the number of books borrowed at a public library.

Day	Mon	Tue	Wed	Thu	Fri
Number of books borrowed	700	600	500	400	350

1. a) Complete the below bar chart from the data on the table above.

b) The most books were borrowed on Monday.

c) 200 fewer books were borrowed on Thursday than Tuesday. (600-400)

d) Twice as many books were borrowed on Monday than on Friday.

e) The number of books borrowed altogether is 2550.

$$(700 + 600 + 500 + 400 + 350 = 2550)$$
