Activity Book p.38

4 Lina has 142 stickers.

Heidi has 85 fewer stickers than Lina.

Kenny has twice as many stickers as the total number of stickers that Lina and Heidi have.

How many stickers do Lina, Heidi and Kenny have altogether?

Number of stickers Heidi has = $142 - 85 = 57$ stickers

Number of stickers that Lina and Heidi have = $142 + 57 = 199$ stickers

Number of stickers Kenny has = $199 + 199 = 398$ stickers

Total number of stickers = $398 + 199 = 597$ stickers

They have 597 stickers altogether.
